Dr. Amaresh Mehta is one of India's leading Energy Dynamics Auditors. Armed with a Doctorate in Paramedical Sciences and with a deep understanding of specialized areas such as Vastu, Feng Shui, Reiki, Geobiology, Geomancy, Gem Therapy, Aroma Therapy, Numerology and Face-reading among many others, Dr. Mehta has delivered over 1,500 lectures in his field of expertise across the globe from the USA to the Middle East and from Africa to the Far East as well.

"The entire plot where Eira stands has been measured for good vastu energy flow and steps have been taken to create a great cosmo-telluric balance in the plot. The plot and the entire project (both the towers) have been injected with plenty of harmonizers and energy enhancers at the basement level, to make sure that good, healthy energy flow travels upwards. The project has also been audited from a geopathic standpoint and has been found to be perfectly in order at the time of audit. At every possible stage of construction, care is being taken to follow the acceptable vastu energy flow principles. Periodical review is carried out to manage effective energy balancing, even in minute details, to ensure greater well-being of the residents."
